

# ON CALL WITH

## Melissa Coleman

*Physician Relations Manager*

*Nine Years of Service at Hahnemann University Hospital*

---

### What does your role as a physician relations manager involve?

*I build relationships with nephrology and gastroenterology practices throughout the Delaware Valley, so they can refer their patients to Hahnemann's kidney and liver transplant programs. Additionally, I*

*serve as a liaison between the hospital and potential transplant candidates, guiding them from the initial appointment to post-transplant care.*

### What do you like about working at Hahnemann?

*I wanted to make a difference after receiving my life-saving organ. Here at Hahnemann, I am able to help build transplant and organ donation awareness, as well as serve those who need specialized care.*

### What made you decide to work in healthcare?

*As a former patient on dialysis for four years and a 10-year kidney recipient, I understand the concern and anxiousness involved with waiting to receive the gift of life. It is my privilege to help patients throughout their continuum of care.*

### What are your hobbies?

*I like to travel the world and learn about different cultures. In my travels, I've been to more than a dozen countries, including Israel, the Czech Republic and Denmark.*

### What's your favorite movie?

*Roman Holiday. I have an Audrey Hepburn portrait in my office.*
